## EXPERT AND TAILORED SERVICES

A team of Oxbridge-educated environmental data experts, we are committed to providing an **adaptable and personalised service** for our clients. Our staff-to-client ratio is higher than any of our competitors', and we can provide expert strategic advice in a wide range of environmental areas.

## SECTOR-LEADING ACCURACY

Our calculation methods and bespoke PACKMAN database software have been developed over ten years in conjunction with the Oxford University Statistics Department. We always perform well in Environment Agency audits, ensuring that our clients receive excellent compliance reports.

## HIGHLY COST-COMPETITIVE

We have won a number of projects from our competitors based on cost, while still achieving superior calculation accuracy. Furthermore, ecoVeritas is **not affiliated** with any packaging compliance scheme, allowing us to offer our clients **impartial advice** on potential savings in their PRN purchasing.

Our extensive experience working with a range of businesses on environmental legislation makes us an ideal partner for your organisation.
